

March 16, 2020

To our Valued Partners / Suppliers:

Due to the outbreak of Covid-19 (Corona Virus) the President of the United States originally banned travel countries including China, S. Korea, Japan, and Italy. As the list grows, effective Friday March 13, 2020 at midnight this includes all European countries excluding the United Kingdom.

At Globe Technologies, the safety and well-being of our employees and our customers is always our priority. With level heads and diligence, we are taking precautions to insure the continuous and uninterrupted supply of our products.

The management team at Globe is monitoring all current information critical to the well-being and safety of our employees and following guidance from the World Health Organization, Center for Disease Control and other health authorities.

We have implemented daily hygiene guidelines within our plant, provided for the safe and effective production of our products and informed our employees of all risks and preventative measures necessary to help reduce the spread of this infectious disease.

We are carefully monitoring our supply chains to insure the continuous flow of raw materials

We are closely monitoring updates from the Center for Disease Control and the World Health Organization regarding COVID-19. We will continue to seek guidance from these agencies, public health officials and government agencies on an ongoing basis.

We have put restrictions on travel, are postponing large-scale events, limiting the size of meetings, providing remote-work solutions where possible, and continue to reinforce safe behavior in every environment

We are asking that visitors plan and gain two-week advance approvals prior to coming to the plant.

We are in continuous communication with our employees reminding them about the importance of good hygiene, providing them with health education and support whenever needed. Employees who feel ill have been told to not report and to self-quarantine while reaching out to their local health care provider for further guidance.

We thank you for your continued support during this troubling time and appreciate your continued supply of products. In the event Globe is required to close operations for a period, we will notify you of this closure.
