

*****To Our Valued Partners*****

March 23, 2020

Reference: Executive Order 2020-21, State of Michigan Issued March 23, 2020

To Whom It May Concern:

Globe Technologies, Inc. provides fire & life-safety equipment both domestically and internationally.

These products are provided through wholesalers, original equipment manufacturers, contractors, and end-users to industry critical in the protection of life and property.

After consult and review of the executive order issued by the Governor of Michigan, the management of Globe Technologies, Inc. determines we are an essential business providing critical products and services to critical infrastructure facilities as detailed below as related to any Covid-19 "Shelter in Place", "Stay at Home", or similar related directives.

- Critical grocery services, necessary to ensure continued operation of grocery and food distribution; and/or
- Critical convenience store services, necessary to ensure continued operation of gasoline, grocery and food distribution; and/or
- Critical restaurant services, necessary to ensure continued operation of food distribution. and/or
- Critical healthcare facilities including hospitals, walk-in medical centers, nursing homes, assisted living communities and/or
- Critical trade services, e.g., electrician, plumbing, HVAC and the like, necessary to ensure continued operation of other essential infrastructure.

We will continue to manufacture our products and provide for their delivery in addition to accepting deliveries to our plant critical to maintain operations as well to provide our employees a safe environment to work in.
