TO: Our Valued Customers & Suppliers

SUBJECT: **News Release Regarding Globe Sprinkler Corporation - UPDATE**

Recently there was a news's communication stating the following:

"STANDISH, Mich. (WJRT) - More than 150 people will lose their jobs by next summer, when the Globe Fire Sprinkler Corp. plant in Standish closes permanently."

Due to the similarity in name, location and branding of Globe Fire Sprinkler and Globe Technologies Corporation we wanted to notify our customers the announced **HAS NOTHING TO DO WITH GLOBE TECHNOLOGIES CORP.**

Globe Technologies remains as it was and is today. **Globe Technologies**, located right in the industrial heart of America in the state of Michigan, remains the world's premium producer of thermal & thermal electric Fusible Links and heat releasing devices. Our links are manufactured to the highest quality standards in our own stamping and production facility. Globe is proud to have recently been registered by DQS Management Systems / Underwriter Laboratories Management Systems Solutions to the International Organization for Standardization ISO 9001:2015 for quality.

Globe Technologies, the world's number one producer of Fusible Links, ensures that our product quality, price and delivery continues to reflect the need of both our customers and the stringent cost conscious demands of the industry. We constantly strive for perfection in everything that we do, which speaks for our continued success.

Always mindful of the life safety aspect of our products, the **Globe Technologies** design and engineering team goes to great lengths to ensure our customers continue to have access to the best information and experience over four decades in the business have to offer.

Should you have any questions or concerns please feel free to contact us. To repeat ourselves, **it's BUSINESS AS USUAL** at Globe Technologies Corporation.

Sincerely:

A handwritten signature in black ink that reads "Michael Laderoute".

Michael Laderoute
President
